

of extinguishing
this imperial will, some
of the first importance, and which produced
important changes in the govern-
ment.
On the 8th of March the regency laid
before the cortes a remonstrance from
the clergy of Cadiz, in which they al-
leged, that from motives of conscience
they desired to be excused from com-
plying with that part of the law which
required them to read in their respective
churches, to their congregations, the
law for abolishing the inquisition.
The cortes considered this act of the
clergy as an open resistance of the law
of the land, and in which they had been
countenanced by the regency, in the ac-
ceptance of their remonstrance, and in
permitting them to officiate in their
churches without reading the law: An
animated discussion took place, which
terminated in a decree removing the re-
gency, and they were accordingly re-
moved, a new regency created, and the
law was the next day read in all the
churches by their respective pastors.—
The Cardinal of Bourbon is at the head
of the present regency.
Of military operations, or other arti-
cles of news, the papers are uncommo-
nly barren; it appears from several arti-
cles that extraordinary preparations were
making for a vigorous commencement
of the campaign; the vanguard of Lord
Wellington's army was already in mo-
tion; great bustle was making in Ma-
drid, by which it appeared that the French
were preparing to leave that city, and
retreating towards Toledo to join the
army commanded by Soult; that general
was preparing to depart for France,
leaving the command to general Ga-
zan.
The county election came on on Mon-
day, when a majority of 168 votes were
obtained by Mr. Newton, which deter-
mines the fate of the election for this
district. To say that this result is not
matter of regret to us, would not com-
port with our feelings; at the same time
it is not matter of surprise. When we
noticed the prodigious activity on one
side, and all the management for which
that party are so distinguished, & when
we did not see the smallest effort on the
other side, we could expect no other
result.
The enemy's force in Lynhaven re-
ceived a reinforcement on Monday of
two ships, one said to be of the line, and
bearing an admiral's flag. On the same
day an inward bound schooner was at-
tacked by eight barges from the ships,
which she beat off in a very gallant man-
ner, but unfortunately from the position
of one of the men of war she was com-
pelled to border too near upon Wil-
loughby Point, by which she grounded,
and was after dark taken possession of
by the enemy. The schooner is sup-
posed to be one of the Baltimore letters
of marque from Bordeaux.
BALTIMORE, April 23.
MELANCHOLY OCCURRENCE.
On Wednesday night last, at Fort
McHenry, Lieutenant MARSHAL EN-
GLISH, of Captain Buffum's Artillery
Company, then on duty at the Fort, was
unfortunately shot by a Centinel, whom,
it is said, he was imprudently attempt-
ing to surprise and disarm; Lieutenant
English, it appears had seized hold of
the Centinel's musquet, a struggle en-
sued, during which the piece was dis-
charged, and put a period to his exist-
ence.
A coroner's inquest was held over the
body, who decided that the discharge of
the musquet was accidental. The de-
ceased was an active and industrious ci-
tizen, and has left a widow and several
small children to deplore his loss.
The Enemy's force Increasing.
Yesterday morning a British squadron
consisting of three ships of the line,
among which is the admiral's ship,
several frigates and smaller ves-
sels to the number altogether of fifteen,
were seen off Annapolis standing up the
bay; and, in the afternoon, they were vi-
sible at North Point.—About sun set a
flag of truce from the British fleet ar-
rived in the river with dispatches, which
were immediately forwarded by express
to Washington. The flag vessel waits
for an answer which is expected to day.

"TO SHew
THE VERY AGE & BOY OF THE TIME
HIS FORM AND PRESSURE."

VIRGINIA ELECTIONS.

We have heard from Mr. Sheffey's
District, and entertain sanguine hopes
of his re-election to Congress. The
polls have been closed in two of the
counties composing his district, Wythe
and Russell.

The votes in these counties were:

IN WYTHE.	
For Sheffey,	371
Campbell,	25
IN RUSSELL.	
For Sheffey,	205
Campbell,	51

Majority for Sheffey in the two coun-
ties 500.

The other counties composing this
district and yet to be heard from are,
Washington, Grayson, Tazewell and
Lee.

NORTHERN ELECTIONS.

The election in Vermont for censors,
to meet for the purpose of revising and
amending the constitution of the
state, has, it is supposed, eventuated in
the choice of federal delegates. The
Montpelier paper states a federal gain
since September last in 129 towns of
2952—and the Washingtonian printed
at Windsor, remote from the paper first
mentioned, gives the federal gain in its
neighborhood in 124 towns, at 1236.—
The Connecticut election for governor,
lieut. governor, council and representa-
tives was held on the 12th inst. The
returns from 83 towns gives a majority
to the hon. John Cotton Smith for go-
vernor of 3823 votes. The consequence
of so many federal candidates being run
for lieut. governor, no choice will be
made by the people: the appointment
will therefore be made by the legisla-
ture in May next.

COMMUNICATION.

Messrs. Editors—I perceive the court
print takes a lively interest in the pro-
posed celebration of Russian victories in
this district. People may have differ-
ent opinions of things, and I take this
intrusion of his, to be meddlesome and
indecorous; inasmuch as the sentiment
excited by these victories, being mun-
icipal, and purely American, are felt by
those only who are anxious for the inde-
pendence of their country. All who
have a tolerable capacity to "discern
the signs of the times," can easily per-
ceive which way we are going; and with
a pace too, that but few are aware of.—
From what Bonaparte has done for Swit-
zerland, Holland, Italy, Austria, Poland,
Prussia, Spain, Portugal, &c. that were
tenacious of their own liberties; can
there be one earthly reason to hope our
country would escape, who stand, this
moment, ready charmed, to pop into the
jaws of the monster as soon as he can
get near enough to receive us? Having
therefore, no resistance of our own to
oppose to the multiplied wrongs and in-
dignities we have received, we can only,
like a strong man, palsied by some
baleful influence, "look on and see the
salvation of the Lord;" and if we believe
he has most signally interposed between
us and slavery, we want no French de-
ists or English renegades to dictate to
us in what manner we shall express our
thanksgiving:—and as the events to be
commemorated are the most sublime
and auspicious that have transpired this
age, so will the celebration in George-
town on the 5th of June next, be the
most splendid, respectable and numer-
ously attended of any festival that has
ever taken place in the District on any
occasion, the fears and prayers of all the
"faction" to the contrary notwithstand-
ing.

British watering place.

The New London papers inform that
the British have landed on Block-Island,
erected their standard, and have built a
wharf, &c. for the convenience of land-
ing from their boats, and embarking
supplies. The water of the island is
very excellent.

This island belongs to Rhode
Island, and forms the township of New
Shoreham: It lies 8 leagues S. S. W.
from R. Island, and contains 714 inha-
bitants. It is famous for cattle & sheep

—butter and cheese; and the shores a-
bound with fish. Am. Gazetteer.

WASHINGTON CITY, April 26.

The British squadron, with added
strength, continues to infest Chesapeake
Bay, and menaces an attack, it is said,
on Annapolis. An express reached this
City yesterday morning from that place,
the object of which was, we learn, to re-
quest a further supply of cannon and
ball.
